Frankling Custom Feeds believes the information contained in this document to be true and correct for the applications as described. Updates may be made to product specifications, usage guidelines, and/or ingredients used in these products. **Customers must seek advice from Frankling Custom Feeds if there is any doubt regarding the usage of products described.** Subject to those terms implied by statute which cannot be excluded restricted or modified, no warranty of accuracy or reliability is given and no responsibility to the customer or any other person is accepted for errors or omissions howsoever arising, including matters arising through negligence by Frankling Custom Feeds, it's Directors, employees or agents.

FCF OptiGro 120 for Cattle is ideally suited for mixing with cereal grains and forages to provide a nutritionally balanced diet suitable for intensive cattle in situations where protein intake may be limiting production.

FCF OptiGro 120 for Cattle contains bypass protein sources, and Optigen II, a slow release, protected nitrogen. The combination of these protein sources can improve growth rates, and carcass quality and yield in diets where protein intake is limiting.

FCF OptiGro 120 for Cattle supplies a complete range of vitamins, minerals, and buffering necessary for healthy growth and performance. High levels of antioxidants, and selected organic minerals have been included to help improve meat quality and certain carcass traits.

Lasalocid sodium (Bovatec®) is included as a coccidiostat and to improve feed conversion efficiency.

FCF OptiGro 120 for Cattle is available as a loose mix, for mixing with grain fed in self-feeders and through mixer wagons in TMR situations.

Inclusion rate is a convenient 120kg/tonne of feed (6 x 20kg bags).

For more specific feeding instructions please contact Frankling Custom Feeds.

When making changes to the diet, care must be taken to avoid digestive upsets.

Frankling Custom Feeds understand every customer has unique requirements and goals. We are specialists in custom feeding programs and happy to customize our feeds to meet your individual needs.

Quality Assurance

With over 30 years experience in the grain industry, Frankling Custom Feeds has an established history of providing quality products with superior service.
